EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Greenwald on 8/15/07.

The application has been amended as follows:

IN THE CLAIMS

In claim 1, line 5, between "a" and "stop member", inserted --drive member--.

In claim 4, line 1, deleted "claim 2" and inserted --claim 1--.

In claim 4, line 1, between "a" and "stop", inserted --lancet--.

In claim 9, line 6, between "a" and "stop member", inserted --drive member--.

In claim 9, line 8, between "moving" and "toward", inserted --under its own momentum--.

In claim 9, line 11, between "a" and "stop member", inserted --lancet--.

In claim 16, line 4, after "stop", inserted --member--.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or render obvious a drive member that is stopped by a stop member before the lancet is moved to an extended position, wherein the stop member does not stop the forward travel of the lancet and the lancet decouples

from the drive member and continues moving forward under its own momentum towards said extended position.

The closest prior art of record is US 5,569,287 to Tezuka. However, Tezuka discloses a drive member that is still coupled to the lancet when the lancet reaches the extended position, as seen in Fig. 3. There is no teaching or suggestion to modify the device of Tezuka to have the drive member decouple from the lancet before the lancet reaches the extended position aside from applicant's own reasoning, which is to prevent the mass of the drive member from bearing on the lancet when the lancet pierces the skin.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
